

# South Carolina AHEC Health Careers Program

The South Carolina AHEC Health Careers Program supports diverse groups of high school and early college students on their paths to becoming healthcare professionals, building a future healthcare workforce that will reflect the diverse range of communities it serves in South Carolina. The Health Careers Program introduces students to health careers, supports their preparation for health professions education programs, and develops skills that help them succeed on their path to a health career.

## Components of the Health Careers Program

Regional Health  
Careers Academies

Online  
Modules

Community  
Service Projects

Live  
Webinars

Summer Enrichment  
Opportunities

### Student Benefits of the Health Careers Program:

- Introduction to and exploration of careers in healthcare
- Networking, job shadowing and hands-on learning
- Academic and career preparation
- Soft skills (e.g., communication, problem solving) development

### Opportunities for Schools and Partners:

- Curriculum supplement and resource for educators
- Support for students interested in health careers
- Opportunities for student engagement, service learning, and job shadowing
- Developing our future healthcare workforce
